

Our Client is a British-owned Asset Manager with a long, proud, history in the City; and a family that spreads throughout all aspects of Finance. They have a fantastic reputation and currently seek to recruit a Performance Analyst.

The team itself is 4 strong, with the majority of the work outsourced. What remains is the Value-Added work, working and sitting directly next to the team of Fund Managers in Front Office. Your work will consist mainly of assisting in ad-hoc requests, aiding and assisting the rest of Front Office in their Portfolio Analytics, making suggestions where necessary and subsequently implementing your own initiatives.

The ideal candidate will have previous Performance experience. However, due to this department being noticeably different to those of alternative Asset Managers, they are willing to look at impressive candidates from related disciplines who could pick up the role quickly. Strong Excel skills are a must – the more advanced the better – relevant examinations would also be very attractive as they would provide a great platform to understand the variety of work in this extraordinary opportunity.

Mason Blake is an equal opportunities employer and welcomes applications regardless of sex, marital status, ethnic origin, sexual orientation, religious belief or age
