

Performance Analyst (Asset management) 12 months fixed term contract

Location: UK-London

A leading city based Investment manager is looking to hire the expertise of a Performance Analyst, who is required to aid in daily, weekly and monthly reporting. You will have at least 2 years of experience within Investment Management and in particular buy side performance and/or risk analytics. Strong knowledge of multiple asset class analysis and ability to calculate attribution down to stock level will be seen as a distinct advantage.

This company places great emphasise on the Performance Analyst interacting with Fund Managers, therefore strong interpersonal skills is vital for the fulfilment of this remit.

The organisation will offer a stable working environment, in which you can develop your career and gain exposure to varying business functions within a leading Asset Manager.
